

# AI Data Insights Report

Generated: 2025-10-31 10:10:28

## Dataset Overview:

Rows: 10, Columns: 5

File: product\_sales\_data.csv

## Question:

Distribution of price

## AI Analysis:

**\*\*Insight:\*\*** The distribution of prices in the dataset ranges from \$40 to \$180, indicating a moderate spread of prices across different products. **\*\*Chart Suggestion:\*\*** A histogram is the most appropriate chart type to visualize the distribution of prices. It will show the frequency of prices within specific ranges, providing a better understanding of the price distribution in the dataset.
